Lithium Battery for MotoCaddy S-Series Golf Carts The S-Series Lithium Battery is 75% lighter and has up to a 5-year longer life-span than its lead-acid counterpart. This 18-Hole battery will complete 18 holes on a MotoCaddy S-Series golf cart when used under normal conditions.

If it's a lithium battery then it may just be coming to the end of it's life. My Motocaddy is 5 years old now and the last few rounds I've noticed I've had to set the speed to 8 and even 9 on occasions but it's still lasting the full 18 holes just now. I'm expecting to have to replace the battery at some point this season.

Charging your 28V or 14V Lithium Battery The Lithium battery can be left on the trolley or removed for charging. It is possible to charge the battery while the trolley is folded or unfolded. Always unplug the battery prior to folding the trolley or charging the battery. 1. Plug the Motocaddy 28V or 14V Lithium battery charger into an earthed ...
