

Journal of Energy Storage " ...

More Brands, More flavours and More Fun02/07/2025 Matcho Soft Serve !!! ...

Lyten will take full ownership of Northvolt Dwa ESS, Europe's largest energy storage systems manufacturing operation, located in Gdansk, Poland. Lyten intends to immediately restart ...

The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on July 19. The 500 MW/ 2 GWh plant represents the first ...

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

On July 23, Desay Battery, a prominent global supplier of energy storage solutions, held a major production launch event in Changsha, China. The occasion highlighted a new lineup of safety ...

The energy storage flywheel market, currently valued at \$236 million in 2025, is projected to experience robust growth, driven by the increasing demand for reliable and efficient energy ...

SLB, a global leader in energy technology, has been awarded a key contract to support carbon storage site development in the North Sea by the Northern Endurance Partnership (NEP). This ...

Moment Energy announced that its Metro Vancouver, BC manufacturing hub is now in full-scale production, delivering its flagship battery energy storage systems (BESS) to serve a growing ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

The global market for hydrogen storage alloys used in Nickel-Metal Hydride (Ni-MH) batteries is experiencing steady growth, driven by increasing demand for energy storage solutions in ...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

NANJING -- In the eastern Chinese coastal county of Rudong, Jiangsu province, a 35-storey-high steel structure houses around 1,000 25-metric-ton gravity blocks that are lifted to store surplus renewable energy and ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to ...

Autowell Intelligent Equipment (ATW) has officially received CE certification from TÜV Rheinland for its energy storage production line, following a rigorous, full-process audit, the milestone affirming its commitment to ...

Explore how ACE Battery leads in sustainable energy storage with green manufacturing, global certifications, and customized ESS built for long-term impact. As the global demand for clean ...

Energy storage technology has advanced by leaps and bounds in recent years, offering a range of benefits for manufacturing facilities. From reducing energy costs and improving grid stability to ...
