

The New Energy Outlook presents BloombergNEF's long-term energy and climate scenarios for the transition to a low-carbon economy. Anchored in real-world sector and country transitions, it provides an independent set of credible ...

25% of global energy pollution comes from industrial heat production. However, emerging thermal energy storage (TES) technologies, using low-cost and abundant materials like molten salt, ...

To triple global renewable energy capacity by 2030 while maintaining electricity security, energy storage needs to increase six-times. To facilitate the rapid uptake of new solar PV and wind, global energy storage capacity increases to 1 500 ...

World Energy Outlook 2021 - Analysis and key findings. A report by the International Energy Agency. ... fuels and storage markets, creating fresh challenges for regulation and market ...

1. Electrification: The power sector is preparing for accelerating electricity demand. The electric power industry is preparing for as much as a tripling of US electricity demand within the next ...

To triple global renewable energy capacity by 2030 while maintaining electricity security, energy storage needs to increase six-times. To facilitate the rapid uptake of new solar PV and wind, ...

The pace of deployment of some clean energy technologies - such as solar PV and electric vehicles - shows what can be achieved with sufficient ambition and policy action, ...

Global EV Outlook 2023 - Analysis and key findings. A report by the International Energy Agency. ... or for stationary storage, but could be more challenging to deploy in locations where ...

BlueGreen Alliance, Executive summary of PERI report: Employment impacts of new U.S. clean energy, manufacturing, and infrastructure laws, September 2023. View in Article; Ibid. View in Article; ABC, "Construction workforce shortage ...

Electric car sales neared 14 million in 2023, 95% of which were in China, Europe and the United States. Almost 14 million new electric cars¹ were registered globally in 2023, bringing their total number on the roads to 40 million, closely ...

Global EV Outlook 2024 - Analysis and key findings. A report by the International Energy Agency. ... in manufacturing is helping to achieve improved battery performance, ... and be suitable for ...

New Energy Storage Performance Forecast Report

"The report focuses on a persistent problem facing renewable energy: how to store it. Storing fossil fuels like coal or oil until it's time to use them isn't a problem, but storage systems for ...
