

# No deposit electricity

Does a no-deposit energy plan require a credit check?

It depends on the type of no-deposit plan you choose. Prepaid electricity plans don't require a credit check since you pay for your electricity bef...

Do I have to sign a contract for a no-deposit plan?

Prepaid electricity plans are typically organized on a month-to-month basis without a contract. You'll likely sign a contract if you get a no-depos...

How quickly can I begin service under a no-deposit plan?

Many no-deposit providers offer same-day setup. That's especially the case if you have a smart meter, which most Texas homes do. Smart meters allow...

Can I transfer my no-deposit plan to a new address if I move?

The first step is to check whether your electric company offers service in the area you're moving to. If it does, you'll need to contact them ahead...

My power went out. What should I do next?

When your power goes out, you should always contact your utility company rather than your no-deposit energy provider. Your utility company is assig...

No-deposit plans: Many light companies in Corpus Christi check your credit when you request service to determine if you qualify to skip the deposit. If you don't want to pay the ...

Energy deregulation allows you to choose from various electricity companies in Houston instead of being limited to your local utility. Electricity providers in Houston compete for customers by offering affordable rates and ...

No deposit electricity is typically a prepaid electricity plan where you pay upfront, monitor your balance and add funds as needed. These plans give you fast and easy setup including the option for same-day electricity, but do ...

Fortunately, there are options available that not only eliminate the need for credit checks but also prioritize renewable energy solutions. By exploring various companies that offer flexible ...
