The 5.5 kW power supply units (PSU) boast over 97.5% peak efficiency. It features high power output and energy efficiency, suitable for AI server. It is customizable in terms of hardware and firmware based on client demands to realize high energy efficiency for data centers.

California, USA - October 18, 2023 - Delta, a global leader in power and thermal management solutions, announces the launch of its latest Open Rack version 3 (ORV3) 1 OU 18 kW power shelves at the OCP Global Summit in San Jose, California, USA. The high efficiency 6-slot-chassis power shelf is specifically designed to enable substantial energy savings in AI servers.

Key ORv3 Power Features
o One power zone with 48V output voltage.
o Flexible and modular power system:
o Add more power and/or backup as needed.
o can be placed anywhere in the rack.
o Independent Power & Battery systems - Higher reliability.
o Universal 7-pin AC power input, allows different voltage configs.
o Peak transient power shaving - with regulated battery approach.
