

What is the electricity storage network?

The Electricity Storage Network, managed by Regen, is an industry group and voice for grid-scale electricity storage in GB.

What is the SuperGen energy storage network+?

The Supergen Energy Storage Network+ is an integrated, forward-looking platform that supports, nurtures the expertise of the energy storage community, disseminating it through academia, industry, and policy, at a particularly important time when decisions on future funding and research strategy are still being resolved.

Who is involved in electricity storage?

It includes a broad range of electricity storage technologies and members, such as electricity storage manufacturers and suppliers, project developers, optimisers, users, electricity network operators, consultants, academic institutions, and research organisations.

What is electricity storage?

Electricity storage is an emerging market and we work to ensure storage developments are integrated efficiently and effectively into the existing distribution network. We expect storage projects to exponentially grow over the long term and become a key part of the UK and Ireland's energy infrastructure.

What is Pacific Energy's largest network-integrated battery storage system?

Pacific Energy delivered Western Australia's largest network-integrated battery storage system as a part of Fortescue Metals Group's Pilbara Energy Connect project.

Will storage become a key part of UK and Ireland's energy infrastructure?

We expect storage projects to exponentially grow over the long term and become a key part of the UK and Ireland's energy infrastructure. Ofgem has approved modifications removing the exclusion of storage at transmission voltages (GCode). Storage now falls under Generation within the Distribution Code (DCode).

Star Storage is a technology pioneer. Our company is a partner of the most important international technology developers and vendors and has invested in advanced technologies so that it offers to customers the most secure solutions ...
