

Photovoltaic high pressure panel washing spray gun

Which solar panel cleaning equipment is suitable for business/industrial use?

This equipment is suitable for business/industrial use. The Solar Panel Cleaning Karcher HD 7/11 & iSolar 400 is a Professional package that includes a HD 7/11-4 pressure washer, 7 metre telescopic lance, iSolar 400 and additional 20 metre high pressure hose with hose coupling for extended working range.

What is the best cleaning tool for solar panels?

Great quality and performance, the best cleaning tool I've used for my solar panels. Very pleased with this purchase, makes cleaning so much easier. The spinning brush is very effective in removing dirt and debris. Maximize solar panel efficiency with Aquaspray®; Rotary Cleaning Brush.

How does a solar pressure washer work?

This high-performance cleaning tool harnesses the power of your pressure washer to drive the soft brush at high speeds, delivering an unmatched spinning force that efficiently removes dirt and debris from the surface of your solar panels.

What is the best rotary cleaning brush for solar panels?

The spinning brush is very effective in removing dirt and debris. Maximize solar panel efficiency with Aquaspray®; Rotary Cleaning Brush. Featuring an 18ft telescopic lance & soft nylon bristles, it offers an unparalleled cleaning experience for solar panels, roofs & more.

Why should you clean your solar & photovoltaic system?

Your solar or photovoltaic system loses up to 30% of its power due to environmental influences and corresponding deposits (depending on the environment). Through continuous cleaning, you increase this performance again and thus your yield!

How do I clean a photovoltaic system?

Our recommendation for cleaning photovoltaic systems: the HDS 10/20-4 M hot water high-pressure cleaner or HD 10/23-4 S cold water high-pressure cleaner combined with the Karcher water softening system and iSolar accessories. A disc brush and telescopic lance are required.
