

**Auto J-Box Potting Machine** An automatic J-box potting machine is composed of conveying, positioning and potting systems. The potting machine is used for automatic glue potting of PV ...

Sorting and packaging machines are used in PV module manufacturing line for solar panel sorting and packaging. Horad provides three types of products in this regard, including auto labelling machine, corner protector inserting machine ...

The potting machine is used for automatic glue potting of PV junction boxes. Discover more; **Vertical Sorting Machine** A vertical sorting machine is an automatic module sorter for sorting ...

**Vertical Sorting Machine** A vertical sorting machine is an automatic module sorter for sorting and sequencing of PV modules. Discover more; ... from glass loading equipment at the beginning ...

**Vertical Sorting Machine** A vertical sorting machine is an automatic module sorter for sorting and sequencing of PV modules. The sorting machine supports flat and vertical sorting according to ...

**Auto J-Box Potting Machine** An automatic J-box potting machine is composed of conveying, positioning and potting systems. The potting machine is used for automatic glue potting of PV junction boxes. Discover more; **EVA/TPT Cutting** ...

**Auto J-Box Soldering Machine** An automatic J-box soldering machine is an efficient machine used for rapid and accurate soldering of PV junction boxes. Featuring higher precision and stability, ...

If you need solar panel testing & inspection equipment, we can help. Contact us to learn more about our custom automated PV module testing equipment. As the solar industry has grown ...

An automatic corner grinding machine is an efficient machine used for automatic grinding of solar panel frame corners. The grinding machine is composed of conveying, positioning and corner ...

**Solar Panel Reuse/Recycling.** Solar panel reuse/recycling service. Automated Solar Panel Disassembly Equipment/Line. PV Panel Inspection Machine and Others "DC Fault Tester" DC Safety Inspection Device For PV Panels? ...

With the rapid development of solar photovoltaic power generation, a large number of photovoltaic panels are gradually entering the end-of-life stage, how to effectively recycle the valuable resources in these panels ...

# Photovoltaic panel automatic sorting equipment

For 9 years, ConfirmWare is trusted by established solar panel manufacturers from around the world as an experienced solution provider for photovoltaic panel production. Our team of expert R& D engineers and technicians follows strict ...

An automatic corner protector inserting machine is used for automatic inserting of kraft or corrugated cardboard corner protectors for solar panels. The panel switching process is easy ...

Robot String Layup A robot string layup adopts leading machine vision technology and intelligent algorithms to rapidly and accurately identify the solar panel's size and other information. ...

EL & VI Tester An EL & VI tester is an electroluminescence and visual inspection system for PV modules. The tester can detect and shoot a range of defects and automatically name and save ...

Auto Trimming Machine The trimming machine can adapt to different sizes and shapes of panels and has a series of merits like high trimming quality, precision and speed, low noise and easy operation. Discover more; Auto J-Box Potting ...
