

Photovoltaic panels are installed free of charge at the factory

Can a solar PV system be installed on a factory roof?

As factories are energy-intensive buildings, installing a solar PV system on the roof of a factory ensures free power can be generated to run everything underneath it. While reducing energy costs, a solar PV installation has the added benefit of demonstrating Corporate Social Responsibility thanks to its environmental credentials.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

How much can I save by installing solar panels on my roof?

How much can I save on energy costs by installing solar panels on my factory roof? Customers can see a healthy reduction in their bills of up to 80% annually, dependant on the size of the system installed. What is the typical return on investment (ROI) for solar panel installations in industrial buildings?

How do free solar panel schemes work?

'Free' solar panel schemes, also known as rent-a-roof schemes, used to be commonplace a few years ago. These were run by companies eager to cash in on the feed-in tariff (FIT). This guarantees payment in return for electricity generated using renewable technologies, including solar power.

Can a business use a PPA to buy a solar system?

Through a PPA, a business can rent its roof and purchase discount solar electricity, instead of investing in a solar system to call its own. This way, businesses can get all of the advantages of solar panels, including the cost savings, without having to actually buy a solar system outright.

Are there free solar panels?

But there are very few free solar panel schemes available now. The Feed-in tariff scheme closed to new applicants in 2019 and has been replaced by the much-less-generous Smart Export Guarantee (SEG) scheme, making it much less attractive to businesses to offer free solar schemes. Learn about the Smart Export Guarantee scheme.

When companies advertise 'free solar panels' or 'no-cost solar programs,' they're often referring to solar leases or solar PPAs. Under these solar financing arrangements, ...
