Screen printing is the traditional method of t-shirt printing where mesh screen stencils are used to print each color in your design individually. Screen printing is more cost effective for large order quantities or custom t-shirt designs with fewer colors and requires an order minimum of 12 pieces. Digital printing, on the other hand, uses ...

Moreover, PV films or special coatings will need encapsulation for being integrated with fabrics. That would ensure stability and prevent degradation from wash cycles. The problem is, such a step may affect the air and moisture permeability, but also make the fabric far less stretchable. Your body won't like that, especially in hot and humid ...
