Who are National Grid partners?

We operate across the UK, Europe and US, developing, operating, and investing in large-scale clean energy infrastructure. National Grid created National Grid Partners to 'disrupt itself' and advance the energy systems of tomorrow. This includes incubating and investing in startups at the intersection of energy and emerging tech.

What is national grid electricity distribution?

National Grid Electricity Distribution is the regional electricity distribution division of National Grid. We provide the power and manage the electricity distribution network for customers in the Midlands, South West and Wales. We own, maintain and develop the high voltage electricity transmission network in England and Wales.
