

Price list of special adhesive tape for photovoltaic panels

What type of adhesive is used for solar panels?

Made with double sided, industrial strength adhesive or our custom hybrid system. High tack adhesive film protects photovoltaic module glass, aluminum, and various metals from damages. Use our residue-free film tape during shipping, handling, and production line processes. PROTEK(TM) film solar tape also resists UV and outdoor aging up to 6 months.

Can you use high bond tape on solar panels?

High bond tape is an ideal solution for affixing solar panels into frames, as well as mounting finished modules. For example, you can use our high bond tape to attach solar panels to brackets on buildings, roofs, RVs and anywhere solar power will be used. Supplied in rolls or spools of tape and custom cut to specified widths.

What type of tape do you use for solar panels?

Supplied in rolls or spools of tape and custom cut to specified widths. Also available in custom die cut parts for easy assembly. Very high bond tape saves time and money when building and mounting PV solar modules. Tape eliminates the need for spacers and sealant mixtures, as well as additional labor and drying time.

What is CSP 3M solar tape?

CSP 3M™ Charge-Collection Solar Tapes consist of tin-plated copper foil with acrylic-based, pressure sensitive adhesives used in thin film solar applications requiring z-axis conductivity. These tapes can be applied at high speeds using automation equipment.

What is 3mm solar acrylic foam tape?

The technology behind 3M™ Solar Acrylic Foam Tapes has been used around the world since 1980 to replace liquid adhesives and mechanical fasteners in permanent bonding and sealing applications. These applications range from assembly of electronic hand-held devices and commercial signage to architectural cladding and glazing on skyscrapers.

How long does solar tape last?

PROTEK(TM) film solar tape also resists UV and outdoor aging up to 6 months. High bond tapes and custom pre-cut forms stick permanently to attach junction boxes to solar modules. Convenient peel and stick tape bonds quickly while high strength adhesive continues to get stronger over time for a lifelong, UV resistant hold.

Vigor Solar Energy Pvt. Ltd. | Sikkander Amin "We used LORD® 810/20GB adhesive to bond the metal brackets to the roof at 1600 KW solar project in Tamil Nadu. Not only did solution meet all ...
