Is pristine solar a good company?

I felt very confident with my choice and was comforted again with a very safe, clean, and quick installation. I highly recommend sorting your solar needs with Pristine Solar.

What's it like working with pristine solar?

Pristine Solar followed up post installation to check on meter readings and how the system is performing. Invoice payment was the very last thing on their agenda which is a nice touch. Overall a very pleasant experience with Pristine Solar.

Does pristine solar offer a lifetime subscription to solar analytics?

After, some research on SolarQuotes, we found that the Solar Analytics Meter was what we were looking for. Fortunately for us, Pristine Solar offered a lifetime subscription to Solar Analytics which only a limited number of solar companies offer. Also, we asked for a discount off the entire quote and Venkat took \$100 off.

Are monocrystalline solar panels more efficient than polycrystalline?

Monocrystalline panels are more efficient but also cost more. Polycrystalline panels are cheaper but also less efficient than monocrystalline. Thin-film solar panels are flexible, so they can be used where the other types can't, such as on curved surfaces or cars, but they are also less efficient.
