structural is meaningless in this case. (B) On the other hand, if you do have ...

The European Commission proposed its target to reduce the EU's net emissions by 90 percent by 2040, a
waypoint between the goal of reducing net emissions by 55 percent by 2030 and achieving climate neutrality
by 2050. ...

?????????: (A) Statistical work without a model is data mining. The distinction between reduced form and
structural is meaningless in this case. (B) On the other hand, if you do have a theoretical model, that does not
make your estimations necessarily structural. For instance, if your model has a testable implication that y
increases in x, and you reg y x and test for a ...
