

The aim is to incentivise individuals to reduce their carbon emissions and make more sustainable travel choices. Would such an idea work in India and across the world? What do experts in the ...

SA Pushes for EPC Compliance as Over 7,000 Buildings Register Before Deadline The push forms part of a broader national effort to enhance energy efficiency, reduce carbon emissions, and save on long-term energy costs.

While ten years have passed since the Paris Agreement, global efforts to reduce emissions are still lacking, with recent UN projections indicating that the world is on course for a temperature rise of 3.1°C by 2100 - well ...

The government is planning to implement public procurement mandates for green steel, aiming to reduce carbon emissions in the steel industry. Green steel is produced with lower emissions ...

The project is expected to reduce carbon emissions by approximately 30,000 tonnes of CO₂ equivalent annually. Additionally, this rail project represents a significant step towards ...

Mitigating climate change means reducing the flow of heat-trapping greenhouse gases into the atmosphere. This involves cutting greenhouse gases from main sources such as power plants, factories, cars, and farms. Forests, ...

The paper, titled "Chemistry advances driving industrial carbon capture technologies," discusses how breakthroughs in chemistry are enabling more efficient and scalable carbon capture solutions for heavy industries such as oil ...

The cement industry has long been a significant contributor to global carbon emissions, accounting for approximately 8% of worldwide CO₂ emissions. As the world moves towards a low-carbon future, there is an urgent need to develop ...

The Indian government is working on modalities to mandate public procurement of green steel to reduce carbon emissions in the steel industry as part of its Green Steel Mission, estimated at ...

Major cities like London and Manchester are retrofitting homes with better insulation and heat pumps, helping to reduce energy use in buildings. The UK's Emissions Trading Scheme, launched in 2021, is now even stricter, putting a ...

Three-quarters of UK institutions reduced their carbon emissions last year as the total volume of CO₂

Reduced carbon emissions maputo

produced fell by the equivalent of flying around the world over 3,500 times. Figures from ...
