

Renewable energy private equity london

Renewable Power Capital General Information Description. Operator of a renewable energy investment platform based in London, England. The company invests in the development, construction, and long-term ownership of solar, onshore wind, and battery storage projects, enabling the energy transition and driving stable long-term, risk-adjusted returns.

Others involve lending--for example, to homeowners installing residential solar facilities or to businesses, where private debt is backed by renewable energy development projects and equipment. Private financing can also be deployed to finance commercial energy efficiency improvements. Owing Hard Assets: Investors in the Driver's Seat

The largest deal over the past five years was KKR 's EUR4.7 billion acquisition of UK waste management firm Viridor, which has an energy recovery business, in 2020. KKR was also involved in the EUR2 billion take-private of London-listed renewable energy company ContourGlobal that was announced last year. The company runs 138 thermal and ...
