

Construction has officially commenced on the Santa Teresa solar and storage facility, a significant renewable energy facility in Do#241;a Ana County, New Mexico. Developed by DESRI (D. E. Shaw ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

LDES can store excess renewable energy for periods of high demand and low supply, making it a powerful hybrid solution essential for maintaining a steady, reliable energy supply while ...

By investing in solar energy, Niger is taking a proactive approach to addressing its energy challenges and positioning itself as a leader in renewable energy development in Africa. The ...

Still speaking about building resilience through climate reparations, it's a time to right the wrongs in terms of energy provision, United States a very challenged environment, and electricity ...

Power Generation Market Trends Installation of Grid-energy Storage Systems to Enhance Market Outlook Grid-energy storage is gaining traction in the modern power grid for storing surplus energy and releasing it ...

The year 2024 was a milestone in the global energy transition. Renewable energy didn't just make gains, it shattered records and established itself as the undisputed economic powerhouse of ...

This study evaluates the effectiveness of passive safety design strategies in selected Nigerian shopping malls: Festival Mall (Festac), Ikeja City Mall, and Palms Mall (Ibadan) using a mixed ...

Some civil society organisations in the Niger Delta have called for the decentralisation of Nigeria's climate change response structure. The call was made at the ongoing Third Niger Delta ...

Nigeria's Rural Electrification Agency plans a \$1.6 billion investment in solar mini-grids and clean energy projects to expand access to electricity, especially in underserved communities. The ...

Google's partnership with Energy Dome to power its data centers will ensure that its electricity demands are met in an efficient, reliable - and most importantly - clean manner. Google ...

The addition of 582 gigawatts of renewable capacity in 2024 led to significant cost savings, avoiding fossil fuel use valued at about USD 57 billion. Notably, 91% of new renewable power ...

Understand the fundamentals of energy transition strategies for oil companies. Master renewable energy integration and diversification techniques. Utilize carbon capture, utilization, and ...

India added a record 22 gigawatts (GW) of renewable energy capacity in the first half of 2025, marking a 57 per cent increase from the 14.2 GW installed in the same period last year, ...

Israel's Augwind Energy has announced plans to build the world's first commercial-scale AirBattery energy storage facility in Germany, marking a major breakthrough in the race to ...

The so called divestment must be started and reversed, it is time to empower the communities and take real climate action by bringing into play community control, renewable energy ...

The United Nations reports a global shift toward renewable energy, calling it a "positive tipping point." Tuesday's U.N. reports reveal that 92.5% of new electricity capacity in 2022 came from ...

After almost nine decades of operating business in Nigeria -- including pumping over 1 million barrels of oil per day from operations in the Niger Delta -- Shell is looking to sell off its assets ...

The challenges to renewables from transmission, seasonal storage, grid flexibility, demand response, and digitization (among others) are substantial, but the benefits from zero-cost inputs, clean air, and energy security continue ...

Hydrogen storage is emerging as a long-duration solution for renewable energy systems, offering grid stability despite lower efficiency and higher costs. The Oxford Institute for Energy Studies ...

DR Congo: Barrick commissions solar plant at Kibali gold mine DR Congo Project bulletin Issue 529 - 07 July 2025 South Africa: Globeleq's Red Sands battery energy storage project eyes construction after financial close ...

Inverter batteries are used to store extra energy produced by solar panels during the day or PHCN power for usage at night or on cloudy days. In this article, we will look at the top ten solar battery brands in Nigeria, which include ...
