

Rho Motion was founded in 2018 by Managing Director Adam Panayi, with the aim of delivering a complete picture of battery demand. What began with Adam independently gathering data on vehicle sales and battery installations quickly diversified into associated technologies including motors and systems, charging and infrastructure, energy ...

Connecting you with key players across the energy transition. Rho Motion events are a forum for learning, discussion and collaboration. They offer outstanding opportunities for networking and market insights into the challenges and opportunities facing the sector. See full event list.

Industry News. 16 October 2024. France reduces its EV subsidy, and tightens vehicle CO2 emission penalties amid budget cuts. The French government has released its proposed budget for 2025, outlining EUR60 billion (USD65.7 billion) in spending cuts and tax increases aiming to manage its fiscal pressures.

Published biannually, the Rho Motion Magazine provides comprehensive coverage of the EV, Battery and Charging markets. The purpose of the magazine is to draw attention to issues that we feel are important to the progress of the energy transition, with a focus on EV, ESS, charging and battery technology developments.

Independent, tailored advice for financial organisations involved in the energy transition. Our team has experience working on both the buy and sell side with unique and specialised commercial due diligence. Our comprehensive appraisals unlock the potential and identify paths to success.

A record-breaking 1.7 million EVs were sold globally over the month of September, announced research-house Rho Motion, today. September overtook the previous record set in December 2023 by 150,000. The Chinese market beat their previous record set in August by 90,000 vehicles, to reach 1.1 million units sold in September 2024.

We assemble leaders in energy, transport, technology and financial markets across the globe through dedicated events programmes. Exploring EV and Battery, Charging, Infrastructure and Battery Recycling, we create opportunities for long-lasting and ...

EV Battery Monthly Database. Gain clarity across the entire EV supply chain with our EV sales database. Our dynamic tool allows users to track and aggregate the demand of EV sales by country and OEM, as well as battery demand by cell manufacturer and chemistry.
