

Ring photovoltaic panel installation

How to install Ring solar panels?

To install Ring solar panels, first mark and drill two spots on the rain gutter for mounting. Then, hold the Ring solar panel in place, mark the spots for the solar panel mounting, and drill the holes. After mounting the solar panels, simply fix them in place and start monitoring.

How do I install my Ring Video Doorbell solar panel?

1. Select your install location for your Solar Panel When selecting your installation spot for the Solar Panel, be sure to choose a spot that gets reliable Sun exposure every day. The Solar Panel can extend your Ring Video Doorbell battery life with just a few hours of direct sunlight per day.

Do ring solar panels require direct sunlight?

If your installation area is frequently very cloudy, this could limit the amount of sunlight that your Ring Solar Panel receives. Ring Solar Panel does require direct sunlight, so filtered/indirect sunlight through the clouds would not provide a charge to your doorbell.

Can a solar panel extend my ring Video Doorbell battery life?

The Solar Panel can extend your Ring Video Doorbell battery life with just a few hours of direct sunlight per day. 2. Line up your Solar Panel To properly line up your Solar Panel: Use the Solar Panel's mounting arm as a template. Mark the screw holes on your chosen surface with a pencil. 3. Drill holes (optional)

How do I mount a solar panel?

Slide the Solar Panel onto the mounting arm. Make sure it's seated securely. Note: If you'd like to adjust the angle of the solar panel for better sun coverage, loosen the adjustment screw on the mounting arm, set your desired angle, then re-tighten the screw.

Can I connect ring solar panel to my chime?

No, you cannot connect Ring Solar Panel to your existing mechanical or digital chime. Still Have Questions? Ability to recharge varies based on device settings, motion notifications and sun exposure in the area of placement.
