Rise Energy is commercializing a modular system that can deploy technology converting biomass into liquid renewable fuels and biochar, improving soil productivity and sequestering carbon. The startup plans to use the funds to fully develop its business model and financial projections, allowing it to secure further investment, Ryan Smith, Chief ...

ENERGY MANAGEMENT The energy experts as Rise can help to bring a new level of confidence to your energy purchasing strategy and budget process. We look at deregulated supply options, utility costs and on-site energy projects to lower costs and achieve sustainability goals. Finance-Grade Energy Budgets Complete energy budgets that include competitive energy supply, ...

Rise Energy | 34 followers on LinkedIn. Powering New Zealand's Transition to a Renewable Future | Rise Energy, a New Zealand-based pioneer in the renewable energy sector, specialises in delivering comprehensive solar energy solutions to retail businesses. Our strength lies in our vast knowledge, professionalism, and an unwavering commitment to advancing sustainable ...

Rise Energy. Energy Recruitment Excellence In the fast-evolving energy sector, finding the right talent is crucial to powering growth and innovation. Rise Energy specialises in connecting top engineering talent with companies across renewable energy, oil and gas, nuclear, and utilities. From engineers and project managers to energy analysts and ...

Take charge of your energy usage with our advanced battery solutions. You can store all that excess energy from your solar panels and unleash it whenever you need it most. We've got your back, even during those pesky power outages. Stay connected, stay in control, and never be left in the dark again.

To enable research and innovation to increase energy efficiency and reduce the cost of energy technologies, to foster wider use of renewables into energy systems ... 84 research infrastructures (RI) from 19 European and associated countries and 3 RIs from Canada, Japan and USA; over 100 external supporters of the proposal; The project kick off ...

Education Trying to stay on top of all the latest developments in the sustainable energy space? Need a crash course in Renewable Natural Gas, Renewable Power, Carbon Offsets or Sustainability Reporting? Rise Energy Services provides custom workshops and seminars that can be delivered on site or virtually. We can tailor for energy procurement professionals, ...

Abstract--Reconfigurable intelligent surface (RIS) is emerging as a promising technology to boost the energy efficiency (EE) of 5G beyond and 6G networks. Inspired by this potential, in ...

To construct a more correct power dissipation model for EE optimization in RIS-aided systems, in this paper, we establish a novel ON-OFF aware power dissipation model for the RIS elements.

Rise Energy was co-founded in December 2022 by Ryan Smith, Tannon Daugaard, and Jordan Funkhouser, all seasoned experts in biofuel technologies from Iowa State University's Bioeconomy Institute. Encouraged by inquiries from venture capital firms and guidance from Bioeconomy Institute Director Dr. Robert Brown, they decided to commercialize ...

Rise Energy positions your business as an industry leader by enabling you to convert feedstocks into renewable products. Leveraging our expertise and proprietary technology, we provide flexible solutions tailored for both large and small commercial applications. [Forestry Management](#). [Environmental Services](#).

"The original RISE report has been one of the most useful sources of information about the state of energy access within and across countries. The goal of the report, to explain why particular countries are ready for investment in sustainable energy, is intrinsically valuable to any private sector participant - be they a utility, vendor, or investor.

[Announcements & Releases](#) Please find all the press and news items below. RISE Energy Services announces partnership with GreenStruxure to bring differentiated, energy-as-a-service solutions to commercial and industrial businesses RISE Energy Services, a leading energy and sustainability firm, has joined the GreenStruxure alliance partner program, which will allow ...

Ris energy

technologies for enabling reliable wireless communication with high energy efficiency. ...

About Me John is an experienced senior energy professional with a proven track record of developing winning strategies and delivering results. He has led two of the largest competitive retail energy companies in the United States and has 27 years of practical experience in a variety of energy industry roles including; energy sales, natural gas and electric operations, energy ...

Abstract: This paper presents an in-depth analysis and optimization of energy efficiency in wireless networks enhanced by Reconfigurable Intelligent Surfaces (RISs). Our investigation ...

Rise Energy is pioneering a biomass conversion technology that produces carbon-negative products for renewable fuels and chemicals. At the core of our innovation lies autothermal pyrolysis, a proprietary process that balances endothermic and exothermic reactions, providing the necessary heat to transform biomass into three valuable outputs: biochar (a solid), ...

To achieve more efficient, competitive, and cost-effective energy systems and devices, RISEnergy fosters a European ecosystem of industry, research organizations and funding agencies aimed ...

RIS Energy Efficiency Optimization with Practical Power Model. Zhiyi Li, Jida Zhang, Jieao Zhu, and Linglong Dai. Department of Electronic Engineering Tsinghua University, Beijing, China ...

The Rise Energy team is proud to offer a wide range of innovative solar technology. We have everything you need to harness the power of the sun, from photovoltaic panels to energy storage systems. Our team is constantly researching and testing new products to ensure that we are always at the forefront of the industry. You can count on us for ...
