

Rooftop photovoltaic panel washing

How do you clean solar panels on a roof?

We advise against getting up on your roof to clean your solar panels whenever possible, but if you feel that it's necessary, opt for a safety harness or hire a professional solar panel cleaning service. Choose biodegradable soap. Collect rainwater for use when feasible. What is the best thing to clean solar panels with?

Do solar PV panels need to be cleaned?

That said, most solar PV panels in the UK will not need any heavy-duty cleaning because regular rain will wash most dirt and grime off the surface, dispelling one of the myths about solar being its difficulty to clean.

Is it safe to clean solar panels from the ground?

Yes, and it's much safer than attempting to climb a ladder. Here's a step-by-step guide to cleaning your solar panels from the ground: 1. Switch off the entire solar PV system. Your solar PV system manual will tell you how to do this. 2.

How to clean solar panels?

Step 2: Choose the best approach: If your solar panels are on the roof, consider using a telescopic window cleaning pole to clean them from the ground instead of using a ladder. Step 3: Mix your cleaning solution: In a bucket of warm water, mix a small amount of mild detergent or use a specialised pre-mixed solution.

Should you clean your solar panels regularly?

The experts at Solar Panel Cleaning Ltd explain that if you don't regularly clean your solar panels dust can accumulate and even just one dusty cell can affect the performance of the entire panel.

Should you hire a professional solar panel cleaning service?

If your solar panels need a thorough clean and you know you won't be able to get it done from the ground, then bring in the pros. Professional solar panel cleaning services have the training, kit and insurance to clean your panels to a high standard in an hour or two.
