

Power Round Page 4 Problem 7: (3 points) Suppose that $D = 3$ throughout this problem. Find all combinations of ... Show that if $l \neq 4$, then the equation in (1) has no solutions. (c) (2 points) Find all the pairs $(N;R)$ that satisfy the equation in (1). The last problem concerns finding encodings that attain equality in (1).

Ceiling power pole (Drop Pole/Utility Pole) is an aluminum pole with 4 dividers (Compartments) to easily divide cables such as data, power, and telecom cable. The power and data pole seamlessly help reticulate power and data cables. Different modular options to choose from, including international plugs, and you can stack as many as you want on a single power pole.

RMT 2015 Power Round Solutions February 14, 2015 Introduction Fair division is the process of dividing a set of goods among several people in a way that is fair". However, as alluded to in the comic above, what exactly we mean by fairness is deceptively complex. We'll explore different notions of fairness in depth throughout this Power Round.
