

Sdc10 box5

What is sdc10-box5 series?

SDC10-Box5 series are suitable for 51.2V low voltage ESS. It adopts high safety, high cycle, high reliability and minimalist design. The system can be paralleled, with capacity extended to 81kWh, applied in grid-connected, off-grid, photovoltaic and all kinds of green and low-carbon applications of household ESS.

Why should you buy the Shoto sdc10-box5?

The SDC10-BOX5 is more than just a battery; it's your gateway to a greener and more sustainable future. Say goodbye to energy dependency and embrace the power of green energy storage. Choose reliability, longevity, and sustainability with Shoto. Invest in a cleaner and brighter energy future with the Shoto SDC10-BOX5.

What are the benefits of the sdc10-box5?

Key Features and Benefits: High-Capacity Energy Storage: The SDC10-BOX5 boasts a substantial 5.12kWh capacity, ensuring you have ample power to meet your energy needs, whether for daily consumption or emergency backup.

What makes the sdc10-box5 a good battery?

High-Capacity Energy Storage: The SDC10-BOX5 boasts a substantial 5.12kWh capacity, ensuring you have ample power to meet your energy needs, whether for daily consumption or emergency backup. **Exceptional Cycle Life:** With a cycle life exceeding 5000 cycles at 90% DOD, this lithium-ion battery is engineered for longevity and sustainability.

Is there a difference between sda10 & sdc10 box 5?

There is a difference between SDC10-Box 5 and SDA10. The Shoto batteries look to be very much the same inside, it's just the housing that is different. The SDA10 is a rack mount battery and the SDC10 is stackable. They are both 16S 5.12kWh LFP batteries and use the same Seplos BMS.

Are sda10 & sdc10 batteries the same?

The Shoto batteries look to be very much the same inside, it's just the housing that is different. The SDA10 is a rack mount battery and the SDC10 is stackable. They are both 16S 5.12kWh LFP batteries and use the same Seplos BMS. 1 month later... Next question... Where can I get another, identical battery?

We recently had a grid-tied solar system installed about 3 weeks ago comprising of a Deye 8kW inverter with 2x Shoto SDC10-Box 5 5.12kWh batteries. Everything was going smoothly until City Power maintenance meant we had no Eskom yesterday for at least 24 hours until this morning. Hence, we woke up with no power from the inverter and batteries ...
