

Selling solar panels for power generation

How do I sell solar power back to the National Grid?

This scheme was replaced by the Smart Export Guarantee (SEG), now the most common method of selling solar power back to the National Grid. To start benefiting from this government-supported scheme, you first need to register for the SEG tariff through an approved energy supplier.

How can a home owner make money from selling solar energy?

Earn money: Homeowners can earn money by selling back electricity to the grid in the UK through programs like the Smart Export Guarantee (SEG). **Reduced carbon emissions:** Selling excess solar energy back to the grid can help reduce the need for fossil fuels and decrease carbon emissions.

Can you get money from solar panels?

As a homeowner with solar panels, you may be able to receive payments for any excess solar energy you send back into the grid. Since 2019, the government has backed various schemes to help those who produce renewable energy, to benefit from sending their surplus into the national energy supply.

How can I earn from selling electricity back to the grid?

The best way to earn through selling electricity back to the grid in the UK is by using the Smart Export Guarantee scheme. Since January 2020, the Smart Export Guarantee scheme has offered small-scale low-carbon energy generators an opportunity to sell solar energy to the grid in the UK.

Can you sell solar power in the UK?

This method of selling solar power was introduced by the UK Government in 2010 to promote the uptake of renewable energy. Homeowners and business owners who installed renewable technology could get paid for all the energy generated if they were registered with a provider under the scheme, whether used by them or not.

How do I sell excess electricity generated by my solar PV system?

To sell excess electricity generated by your solar PV system, you need to apply directly to a licensed SEG tariff supplier. Your SEG licensee doesn't have to be your current top-up electricity supplier. You can choose different companies for SEG payments, electricity supply, and gas supply.
