

Shi Zhengrong Solar Power Generation

Who is Shi Zhengrong?

Shi Zhengrong (Chinese: 尚志红; pinyin: ShìZhǎng#232;ng#243;ng, born on February 10, 1963) is a Chinese - Australian businessman and philanthropist. He is the founder and, up to March 2013, chairman and chief executive officer of Suntech Power. Shi was born in Yangzhong, Jiangsu, China. His identical twin brother is Chen Henglong, who is also a tycoon.

How did Shi Zhengrong become a billionaire?

Shi Zhengrong became the world's first clean energy billionaire, nicknamed "The Sun King". China went on to dominate global solar panel manufacturing and, thanks to a mix of innovation and cut-throat competition, made solar the cheapest source of electricity in history.

Who is China's second large-scale solar manufacturer?

Drs Wang and Zhao set up China's second large-scale solar manufacturer, China Sunergy, in 2006, after a combined 40 years at UNSW. The first (Suntech) was established by another one of Prof. Green's proteges, Zhengrong Shi.

Could Chinese solar companies expand to Australia?

China dominates global solar manufacturing, but Chinese companies may be interested in expanding to Australia, experts say. (Getty: Song Wei/VCG)

Does Australia need a Chinese solar supply chain?

"It's about what is the global supply chain and where is it sensible we play a part?" Renate Egan, executive director for the Australian Centre for Advanced Photovoltaics and professor of engineering at UNSW, said. Australia needs to work with China, including welcoming Chinese solar manufacturers into Australia, Professor Egan said.

How efficient were solar cells at UNSW in 1983?

Profs Green and Blakers produced solar cells with 18 per cent efficiency at UNSW in 1983, surpassing the 16.5 per cent recorded previously.

Zhengrong Shi is a central figure to the development of the Chinese and global photovoltaic industry. Over his decorated 30-year career, Shi founded Suntech and built the photovoltaic ecosystem in China. "Qiushi" magazine praised Shi ...

Dr. Zhengrong Shi is the founder of Suntech Power Holdings Co., Ltd., for many years the largest global solar photovoltaic (PV) panel manufacturer. As a leading solar scientist, Dr. Shi is the ...

Suntech's Shi Zhengrong built one of the world's biggest solar-power companies. ... Like so many

Shi Zhengrong Solar Power Generation

businessmen of his generation, Shi sprinted through the economic open-door policy begun by the late ...

Dr Shi Zhengrong, who for a time was the world's first clean energy billionaire, on Wednesday opens a 235kW solar installation at Sydney's Maritime Museum, using ...

Small-scale solar now makes up 23.5 per cent of Australia's renewable energy generation, with medium-scale solar adding another 1.4 per cent and large-scale solar adding 10.9 per cent. All up, renewables contribute 27.7 per cent of ...

The first (Suntech) was established by another one of Prof. Green's proteges, Zhengrong Shi. With the cost of solar power generation falling by over 80 per cent in the past decade, PERC technology is now the most ...

Former Suntech President Shi Zhengrong says that China's "solar cluster" has worked in an organized way to achieve both scale and product quality and performance. Known widely as Dr Shi, the true solar pioneer is ...

Shi Zhengrong | World Economic Forum. 1983, Bachelor's in Optical Science, Jilin University, China; 1986, Master's in Laser Physics, Shanghai Institute of Optics and Fine Mechanics, Chinese Academy of Sciences; 1992, PhD in ...

"Under the steady guidance of Dr. Zhengrong Shi, Suntech has been driving the expansion of solar power around the world," said Dr. Sultan Al Jaber, Director General of the ...
