

Solar Photovoltaic Installation Scam

Are solar panels a scam or a cold call?

Here are the cold calls and potential scams to avoid. More than a third of solar PV panel owners in our recent survey told us they have been cold called about their panels in the past five years. Most cold callers were trying to sell them something unnecessary, but a few owners were told something completely untrue.

How do you identify a solar panel company to avoid scams?

These tactics may include persistent calls, scare tactics, door-to-door visits, or making unfounded claims about solar benefits. Companies employing such methods prioritize sales over delivering quality service. These are the red flags to identify solar panel companies to avoid scams. Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

Are solar panel scams common in Florida and California?

Solar panel scams in Florida and California are quite common, as they are in any region where solar energy is popular and incentives are provided. Scammers take advantage of people's limited knowledge about solar systems, providing misleading information that makes it hard for victims to recognize the scam.

Is my solar panel installer going out of business?

If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In this instance, it turned out to be a scam. Instead, check your original installer's website and try the contact details you were given when your panels were installed.

How do I file a complaint against a solar panel company?

Check your state's DOJ website for information on filing a lawsuit or settling a complaint in small claims court. With this, you have learned that filing complaints against solar panel companies involved in solar scams is quite simple. Let's finally read about some cases of solar panel scams in Florida and California.
