

Solar company annual report

Who sold our solar modules in 2022?

on a per watt basis. During 2022, Intersect Power, Lightsource BP, and NextEra Energy each accounted for more than 10% of our modules business net sales, and the majority of our solar modules were sold to developers and operators of systems in the United States. Substantially all of our modules business net sales during 2022 were denominated

What if a solar energy system is sold to the IRS?

The maximum potential future payments that we could have to make under this obligation would depend on the difference between the fair values of the solar energy systems sold or transferred to the funds as determined by us and the values that the IRS would determine as the fair value for the systems for purposes of claiming ITCs.

How much solar energy will be produced by 2030?

Based on these targets, it is projected that the solar energy generation capacity will be 300 GW AC by 2030. The government has also announced a series of policy and regulatory measures to incentivize domestic manufacturing of PV solar modules, as described below under "Support Programs."

Who is first solar?

February 2024 marked the 25th anniversary of First Solar's founding, making us one of the world's oldest and most experienced solar module manufacturers. This is a remarkable milestone in a journey that has positioned us as the Western Hemisphere's leading solar module technology and manufacturing company.

What makes first solar a sustainable company?

From raw material sourcing and manufacturing through end-of-life module recycling, First Solar's approach to technology embodies sustainability and a responsibility towards people and the planet. To Our Shareholders.

What was the purchase price for the solar project development business?

Such purchase price included \$151.4 million for the sale of the U.S. project development business and \$132.6 million for the sale of 392 MW DC of solar modules, which is presented in "Net sales" on our consolidated statements of operations for the year ended December 31, 2021.
