

In Short : Union Minister Hardeep Puri praised the shared spirit of innovation and positive energy between India and Iceland after his visit to Reykjavik. He engaged with companies like ...

While Iceland stands proudly as a global poster child for clean energy, with nearly 100 % of its electricity coming from renewable sources, the reality behind this green facade is murkier than ...

Congress and President Trump just passed legislation to cut the 30% residential solar tax credit in 2026--nearly a decade ahead of schedule. For homeowners considering solar, act now to lock ...

Geothermal energy's moment is here. Once constrained by niche geologic resources, the ability to produce ubiquitous, clean power and heat from the earth's crust is now on the horizon. Thanks ...

Iceland Foods Limited (Iceland) has partnered with renewable technology provider, Shawton Energy, to roll out rooftop solar systems across multiple sites within its retail portfolio. The ...

Iceland Foods has hit a major milestone in its rooftop solar rollout, completing Phase 1 of its Power Purchase Agreement (PPA) across key distribution centres with partners Ortus Energy ...

As part of President Donald J. Trump's Energy Dominance agenda, the US Department of the Interior has announced heightened scrutiny and oversight of wind and solar projects, ending ...

Supermarket chain Iceland has partnered with renewable technology provider Shawton Energy to accelerate its rooftop solar rollout. It estimates that the new solar arrays will reduce its annual ...

Renewable energy, usable energy derived from replenishable sources such as the Sun (solar energy), wind (wind power), rivers (hydroelectric power), hot springs (geothermal energy), tides (tidal power), and biomass ...

Iceland Foods has revealed that two of its distribution centres are on track to generate 3MW of solar electricity and cut the frozen food retailer's carbon footprint by 550 tonnes of CO2 in their ...

In June 2025, Iceland achieved its first-ever full calendar month powered entirely by renewables generating 100% of its electricity from geothermal and hydropower, with an impressive 90% of ...

Iceland Foods Limited (Iceland) has partnered with renewable technology provider, Shawton Energy, to roll out rooftop solar systems across multiple sites within its retail portfolio.

Solar energy iceland

Iceland Foods is to roll out rooftop solar systems across multiple sites within its retail estate. The combined energy output of the multiple installations will be up to 10MWp, enough to power ...

Iceland's electricity is remarkably clean, almost entirely from hydropower and geothermal, primarily hydropower. This isn't some environmental virtue. It was winning the geographic ...

Alternative energies include renewable sources --such as solar, tidal, wind, biofuel, hydroelectric, and geothermal --and nonrenewable nuclear power (considered alternative but not renewable because it relies on uranium, ...

Discover the power of geothermal energy: a renewable, reliable, and clean source of electricity harnessed from the Earth's internal heat. Learn how it works, its benefits, challenges, ...

Iceland has reached a major milestone in the project (Image credit: Iceland Foods) Iceland Foods has reached a significant milestone in its journey towards net zero, with its Swindon and ...
