

Iceland Foods is to roll out rooftop solar systems across multiple sites within its retail estate. The combined energy output of the multiple installations will be up to 10MWp, enough to power ...

The global solar power market size was valued at USD 253.69 billion in 2023 and is projected to be worth USD 273 billion in 2024 and reach USD 436.36 billion by 2032, exhibiting a CAGR of 6% during the forecast period. ...

In June 2025, Iceland achieved its first-ever full calendar month powered entirely by renewables generating 100% of its electricity from geothermal and hydropower, with an impressive 90% of ...

In summary, China leads the global solar energy market with a total installed capacity of 390, 973 MW, accounting for nearly two-fifths of the total global solar capacity. The United States has ...

US President Donald Trump launched a Section 232 trade investigation targeting China's polysilicon exports, which control 95% of the global market, as his administration dismantles ...

Accordingly, solar service companies have begun to focus on a rapidly expanding inverter replacement market, repowering solar systems that have long since passed their warranty periods and payback dates.

Iceland Foods Limited (Iceland) has partnered with renewable technology provider, Shawton Energy, to roll out rooftop solar systems across multiple sites within its retail portfolio.

Supermarket chain Iceland has partnered with renewable technology provider Shawton Energy to accelerate its rooftop solar rollout. It estimates that the new solar arrays will reduce its annual ...

For the first time in history, solar energy became the European Union's largest source of electricity, supplying 22.1% of the bloc's total power mix in June 2025, according to ...

Iceland Foods has hit a major milestone in its rooftop solar rollout, completing Phase 1 of its Power Purchase Agreement (PPA) across key distribution centres with partners Ortus Energy ...

The solar energy storage market is transforming the renewable energy landscape by providing reliable, efficient solutions for storing solar power. This market includes technologies such as ...

Solar Energy Market Analysis by Mordor Intelligence The Solar Energy Market size in terms of installed base is expected to grow from 2.35 Thousand gigawatt in 2025 to 6.26 Thousand gigawatt by 2030, at a CAGR of ...

Renewable energy, usable energy derived from replenishable sources such as the Sun (solar energy), wind (wind power), rivers (hydroelectric power), hot springs (geothermal energy), tides (tidal power), and biomass ...

The EU Market Outlook for Solar Power: 2025 Mid-Year analysis is the first of our reports of its kind. The publication provides a brief market snapshot and outlook for the rest of the year. As ...

The utility-scale solar market remains relatively resilient, driven by auctions across Europe that incentivise flexible solar projects that are combined with storage or wind. BRUSSELS, Belgium ...

Business Australia sees "battery boom" following launch of massive government incentive program: "Will help smooth ... [an] increasingly volatile power market" Analysts are optimistic.
