Who is the best solar company?

Freedom Solar is our top-rated solar company due to its customized, high-performance panels. We also like Blue Raven Solar as a contender because it provides competitive rates on high-efficiency systems and has one of the best financing programs for solar.

Is venture a good solar company?

Venture has an A+ rating and accreditation on its BBB profile. According to customer reviews, the company provides high-quality workmanship on its solar panel systems and good customer support. However, some customers have raised concerns about the pricing and quoting process.

Are solar salespeople a bad thing?

But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings. Solar salespeople might try to lure you in with promises of free solar panels and limited-time special deals. In most cases, these are just aggressive sales tactics they'll use to rush you into a contract.

Which solar companies offer the best in-house financing?

Financing Options (12 out of 15 points): Blue Raven offers some of the best in-house financing of the companies on this list, but it limits this financing to solar loans. You may want to consider a different provider, such as Sunrun, if you're looking for a lease or PPA.

Sunny Solar Partners (the solar installer) is licensed as a general building and electrical contractor. Sunny Solar Partners gets 20-25 new signed agreements per day. But since Sunny Solar Partners (the solar installer) does not have a solar license nor roofing license, the company subcontracts all the work to the lowest bidders.
