How much does it cost to install solar panels in Oklahoma City?

The cost rises if you choose any accessories like batteries, solar trackers or animal guards. According to statistics from the EIA, NASA and the Bureau of Labor Statistics (BLS) the mean cost to install solar panels in Oklahoma City is \$18,445.

How do I choose a solar installation company?

Determining which type of solar panels will best suit your lifestyle is an important part of choosing an installation company. For residential use, there are typically three solar panel options: monocrystalline, polycrystalline and thin-film. A fourth option, solar shingles, are newer and less cost-effective.

Does solar increase property value in Oklahoma?

Unfortunately, Oklahoma doesn't offer additional solar incentives, such as property tax exemptions. While installing solar boosts home value, it leads to higher property taxes. If you're considering selling your solar-powered home, the increased property value will result in a higher selling price.
