Who should I choose for solar in Bakersfield?

Here are the top companies we recommend for solar in Bakersfield: Green 360 Solutions, owned by Kfir, was the solar company I chose for my solar energy system. When I made the decision to go, Solar, I interviewed 3 to 4 companies. Green 360 Solutions was far above the other companies.

How much does solar cost in Bakersfield CA?

The average price per watt of solar power in Bakersfield, CA is \$2.36/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$17,343 for a 10.51 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Do I need a solar battery in Bakersfield?

No, you don't need to install a solar battery in Bakersfield. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

Does Bakersfield California offer solar incentives?

In the pursuit of encouraging renewable energy, Bakersfield, California, offers a variety of solar incentives at both local and state levels. These incentives make solar power more attainable for its residents. One example of a local solar incentive is the Self-Generation Incentive Program (SGIP).

How much energy does a Bakersfield home need?

Based on the size of the median Bakersfield household, which is 1,756 square feet, and the average energy usage per household in California, which is 542 kWh per household, you can estimate how much energy your home might require. This information can help you determine which solar company can best take care of your home's needs within your budget.

The solar panel industry has grown over the past few years.
