How much does a solar panel cost in Miami-Dade County?

The average solar panel cost in Miami-Dade County, FL as of May 2024 is \$2.56/w. Installing a 5 kW system will cost between \$10,874 and \$14,712, with an average cost of \$12,793.

Can solar panels be installed on a roof in Miami?

The location and pitch of your roof matters too, and will determine how much energy your panels can produce. Ask potential solar installers if your roof is a good fit for solar panels. Peak sun hours: Miami has around 250 sunny days per year, which bodes well for solar panels.

Does Florida solar & air install solar panels?

In addition to solar installations, Florida Solar & Air also works on roofing, windows, doors and HVACs. The company installs panels from Jinko Solar and REC Group. It also offers financing options. Florida Solar & Air has an A+ rating from the Better Business Bureau and a 4.7 rating on Google.

Are solar panels a good investment in Florida?

While there's a hefty initial investment involved, solar panels can greatly reduce your monthly electricity bill and help you take advantage of that intense Florida sunlight. In fact, Florida has some of the cheapest solar costs in the country and the federal solar tax credit can help ease some of the financial burden.

Does Miami have a solar tax credit?

Miami has plenty of sunny days and peak sun hours to give you lots of solar energy, and solar costs in Florida are low enough to make the investment pay off. Does Miami offer a solar tax credit? The city doesn't have a specific solar tax credit, but Miami residents can take advantage of federal and state solar incentives.
