

Solar panel critter guard installation near me

Can a solar installer install a Critter guard?

Your solar installer can help you with a critter guard installation, or if your panels are already installed, you can find some options online from Amazon that you can install yourself.

How much does a Critter guard cost?

The cost of critter guards can range based on which type you decide to go with, with a custom installation ranging from \$500 to \$2,000 or one from Amazon for as cheap as \$40 for 50 feet of netting. One option that you can purchase is the Maporch solar panel bird wire, currently listed for \$39.99. Image source: Amazon

Are solar Critter guards worth it?

Whether you are interested in installing solar panels or need an upgrade for your solar panels to last longer, solar critter guards are a great protective, cost-effective option. They will keep the wires under the panels free from pests and ensure that leaves and other debris don't get stuck and cause damage.

Do you need a Critter guard on a rooftop solar system?

Because rooftop panels are held up with a rack, regardless of panel type, they are not flush on the roof's surface. Because of this, critter guards are recommended for each rooftop solar system where animals or excess vegetation can cause damage. Where can you buy solar critter guards?

Why do you need solar Critter guards?

As a homeowner, the main reason to get solar critter guards is to protect your panels from damage- they can extend their life and save you the hassle of getting a broken panel repaired. These guards can protect your solar panels from birds, squirrels, and even raccoons.

Do solar panels have Critter guards?

The easiest and most common solution to solar's animal problem is to install "critter guards," a physical barrier between your panels and your local wildlife. Here's what you should know about them. Why do you need a solar panel critter guard?
