Maintenance and Troubleshooting of Solar Powered Security Cameras. Regular maintenance visits are crucial to guarantee your solar-powered security system keeps running at maximum effectiveness. Check the solar panel often for trash and grime that can block sunlight; gently clean it using a soft cloth and soapy water.

The first is where you want the camera to be installed for maximum protection, and the second is where the solar panel needs to be placed for maximum sun exposure. To keep your solar-powered security camera up and running, you need enough peak sun hours to get it fully charged. Peak sun hours are classified as an hour in which the sun provides ...
