Enjoy lovely, naturally lit rooms, with all the convenience of remote- or smartphone-controlled shades to diffuse or block the light when needed. Plus, they add a layer of insulation, boosting your skylight's energy performance -- by 45% with ...

Solar "Fresh Air" Skylight. VELUX Solar "Fresh Air" Skylights harness the power of the sun to open and close the unit at the touch of a button (or with your smartphone). A solar panel on the skylight's exterior collects available daylight to charge the concealed batteries that power the skylight without cords or wires.

However, in our experience, we've seen how solar panels and skylights can effectively work together because they're a problem and solution in a single package. For traditional properties, a classic solar panel installation is enough to collect sunlight. On the other hand, skylight-dependent properties can use new skylight technologies, such ...

VELUX Solar Powered "Fresh Air" Skylights will bring natural daylight and improve air circulation in your home. You can open and close the skylight with just the touch of a button, and an integrated rain sensor will automatically close the skylight at the first sign of inclement weather.
