

Solar power trail cam

Our top pick for the best solar trail camera is this surprisingly budget-friendly option from Campark, the T45A 2020 upgrade. The camera pretty much every quality you're likely to be looking for with high-image quality, high-definition video quality, ease of use, and even a super-fast trigger speed of just 0.3 seconds.

Save Time and Money. Too often battery life is the limiting factor when it comes to leaving cameras and hunting areas undisturbed. Solar technology keeps cameras running longer than other power solutions, and means you can save the time and expense of trips to visit camera locations to replace batteries.
