Can you get a solar energy grant in 2023?

The grant opened in April 2023 and will run until March 2025. It can be used to fund home improvements, such as insulation, heat pumps, double glazing, solar thermal, and solar PV panels. As of February 2024, 28% of the grants handed out have been for solar panels, so applying for the grant is worth a shot if you're eligible.

How much money can you save with solar panels?

The average home can save more than £1,100 every year with solar panels! There are several solar panel grants and incentives currently available in the UK, aimed at reducing the cost of solar panels, your households' energy bills and encouraging the adoption of renewable energy. How much could you get?

Do subsidies affect people's willingness to install solar panels?

Analysis of data from the past 15 years shows that subsidies do have a significant impact on people's willingness to install solar panels. Introduced when the Labour Party was last in power in 2010, the Feed-in Tariff (FIT) scheme aimed to encourage the uptake of solar by paying homeowners for the electricity they generated.

Are there government grants for solar panels?

There are currently three government grants available to help with the upfront costs of solar panel installation: ECO4: Funding for energy-efficient retrofits to fuel-poor households, or ones with occupants on certain benefits. Each grant has different eligibility criteria, as well as the benefits they provide.

Can solar panels reduce your energy bill?

Solar panels can help reduce your monthly energy bill - and if you think you can't afford them, there is help available. Solar panels can reduce your annual electricity bill by 70% and for the average three-bedroom house, solar panels will pay for themselves in 15.46 years.
