

Solar system costume

What better way to learn about the universe than by dressing up as the solar system? This Solar System Costume for kids includes a black glittery mesh tunic, a bright yellow hood that acts as the sun, and 11 Velcro cutouts of planets, comets, and even a spaceship.

This DIY solar system Halloween costume is made from foam balls that have been painted to look like the different planets in the solar system, then suspended from a large floral wreath ring and placed on suspenders.

What better way to learn about the universe than by dressing up as the solar system? This Solar System Costume for kids includes a black glittery mesh tunic, a bright yellow hood that acts as ...

Shop our selection of solar system costumes for your next event, and you're sure to shine. Light up the room with a moon costume or add some warmth to the space with a sun costume. No matter what you choose, you'll be the star of the show!
