Do you recommend Sunergy?

I highly recommend Sunergy. Today marks the one year anniversary of the solar installation of my home. The system has been running seamlessly and I think it almost neutralized my power consumption despite the unexpected long rain season. BTW, I have a 8.8 kWh system and it produced 13.6 MWh.

The ESA (European Space Agency) Sun Monitoring on the External Payload Facility of Columbus, or Solar, collected data on solar energy output for more than a decade with three instruments covering most wavelengths of the electromagnetic spectrum. Different wavelengths emitted by the Sun are absorbed by and influence Earth's atmosphere and ...

When your property adopts solar power, it enters into a "Net Energy Meter" agreement with the utility company. Net metering is a program that enables customers who generate their own electricity, such as

Sunergy

through solar panels, to receive credits for any surplus power they produce and feed back into the grid.

Unmatched Heritage. With nearly 40 years of experience and expertise, it's no wonder we're the top-rated solar company in the U.S.--and the only residential solar company that's been around longer than our industry-leading, 25-year panel warranty. * Based on the top 20 panel manufacturers by market share in the U.S. (per Wood Mackenzie US PV Leaderboard Q3 ...

4 days ago; Click here to download this video (1920x1080, 128 MB, video/mp4). Where does the Sun's energy come from? The Sun's heat influences the environments of all the planets, dwarf planets, moons, asteroids, and comets in our solar system.
