If the above doesn't restore power, the next step is to power cycle (AKA restart) the Tesla Gateway using the reset button. There are two versions of the gateway, use the photos provided to identify yours. To access the reset button you will need to open the gateway door, and you will also need a pen, paperclip, chopstick or other long skinny stick to press the reset button.

SunRun Customer Service Overview SunRun has an overall customer service rating of 1 out of 5. Their rate for resolving issues is 0%, and customer sentiment is very dissatisfied. When calling, customers experience an average hold time of 2 minutes. The shortest wait times occur on Wednesdays, while Friday have the longest wait times.

2. The customer service drops off significantly after the Sunrun installation is complete (or the contract is signed). More than one customer has noted in their review that the follow-up from Sunrun when issues arise with their solar system is less than desirable, making it hard to fix things quickly.

Many positive reviews mention Sunrun's helpful customer service representatives and solar experts. They say how responsive and helpful the company is with questions and concerns. For example ...

Customer service is the worst. Customer service is the worst. They tell you someone will get back to you later in the day or call you back in 10 minutes and the don't. Try to get someone out to fix the WiFi and Sunrun

Sunrun customer support

wants me to sign a document wanting me to pay them \$500+ to troubleshoot the system.
