

Are energy saving materials subject to VAT?

The installation of Energy Saving Materials (including solar pv systems, wind or water turbines, heat pumps, draught proofing and insulation) into residential accommodation, and certain buildings used for a charitable purpose, is subject to VAT at only 5%. This reduced rate applies to the combined cost of the materials and their installation.

Is there a zero-rate VAT on solar panels?

A zero-rate of VAT on the installation of energy-saving materials (ESMs), including solar panels, in residential accommodation, was introduced on 1 April 2022. At the time, it only applied to England, Scotland, and Wales. Following a new agreement between the UK and the EU, the zero-rating was also implemented in Northern Ireland on 1 May 2023.

Do solar panels save tax?

Your tax saving by investing in solar is £22,800.00! As a rough rule of thumb, the tax saving is roughly equivalent to 1 year of benefits of your solar array. How does the 50% tax break for solar panels work? To demonstrate this in more detail: Investing in solar would provide you with a capital allowance to reduce your tax bill:

Are solar panels tax deductible?

Overall, capital allowances on solar panels can provide a valuable tax relief for businesses investing in renewable energy and can help to reduce the cost of transitioning to a more sustainable and energy-efficient business model. The Government is offering tax breaks for the installation of solar panels until 31 March 2023.
