

Tax policies related to solar power generation

Are solar farm developments a tax issue?

In this article, Nicola Parkinson and Kathryn Brook, specialist lawyers from Walker Morris' Tax and Infrastructure & Energy teams respectively, highlight potential tax issues associated with solar farm developments.

Are solar projects tax deductible?

Oliver Bond of accountants Old Mill advises farmers planning solar investments to recognise that tax allowances and cost deductions from profits apply in the period the solar asset is installed and "ready for use", so care should be given to timing, especially if a build spans different tax years.

Do solar installations qualify for HMRC tax relief?

HMRC regard solar installations as a long-life asset, which sometimes reduces relief. However, the installations do qualify for 100% Annual Investment Allowance (which is available for up to £1,000,000 of total qualifying expenditure by most standalone farming sole traders, partnerships or companies in the year ending 31 March 2023).

Are commercial solar installations eligible for capital allowances?

Commercial installations are usually larger than domestic ones. The cost of a commercial solar installation is eligible for capital allowances. HMRC regard solar installations as a long-life asset, which sometimes reduces relief.

Will Solar Energy UK speed up investment in the power grid?

Plans to speed up investment in the power grid, accelerate planning decisions and extend a tax rebate have all been welcomed by Solar Energy UK.

What are the tax rules for electricity installation?

There are two different sets of tax rules, depending principally on whether the installation is domestic or commercial. The contract documentation will state the type of installation. A domestic installation is normally mounted on the farmhouse roof (occasionally in the garden) and provides electricity solely to the dwelling.

For example, Pineiro-Villaverde and Garca-lvarez analyzed the impacts of wind and solar energy support policies (supply-side policies) and energy tax policies (demand ...
