Is Elon Musk behind a new energy saving device?

Social media ads claim Elon Musk is behind a new energy saving device. But is he really involved? And is it worth buying? Love him or hate him, Elon Musk has a lot of sway when it comes to technology. So we wanted to know about new claims that Musk is also behind energy-saving devices, that could lower or even eliminate your power bill.

Does Tesla Powerwall have a solar inverter?

You can also pair it with Tesla's Solar Inverter, which is excellent in its own right. The Powerwall also comes with its own app, although this isn't the most unique feature these days. You can use it to check how much energy you have stored, how much you've consumed, and other metrics.

Does Tesla still offer warranty support?

In case it is, Tesla is likely to keep offering warranty support to the existing users. Powerwall 3 and Powerwall 2 can't be installed together, so if you already have an existing Powerwall system and need a capacity upgrade, you'll have to purchase another Powerwall 2 battery.

Is Tesla Powerwalls a good app?

One of the better traits of Tesla Powerwalls is its versatility. The app has a function that lets you use battery power instead of grid power during scheduled times of the day. This can help circumvent things like Time of Use (TOU) pricing.

Are Celebs selling energy-saving devices?

Celebrity endorsements are enough for a lot of people to buy into whatever the celebs are selling. But a recent Reuters Fact Check says "there is no evidence" the billionaire is selling an energy-saving device, contrary to those social media posts. We checked with the electric industry, and saw similar skepticism.

Is Tesla a good brand?

The Tesla brand earns a 4.5 out of 5 star rating on the EnergySage Marketplace, based on more than 600 reviews. Most of those reviews are about Tesla installers rather than the equipment itself. But since you would be getting a Powerwall installed by a certified Tesla pro, that rating bodes well for your installation experience.

The "Elon Musk's New Electricity Saving Invention" scam is a common and dangerous scam that uses his name and fame to sell fake products that do not work and can harm you. Do not fall for this scam and do not buy any energy-saving devices that claim to have his endorsement or invention.
