

STAVANGER, July 21, 2025 - Vår Energi has made a commercial gas and condensate discovery in the Vidsyn exploration well near the Fenja field in the Norwegian Sea, the company said on ...

Lydian Energy has obtained USD 233 million (EUR 198.8m) in project financing to support three battery energy storage systems (BESS), which are currently under construction in Texas and ...

Texas is leading the way in battery storage--and it's good news for the ERCOT grid and your electricity bill. Learn how Rhythm supports this shift toward a more reliable, renewable energy ...

IPP Lydian Energy has successfully closed on a US\$233 million project financing for three battery energy storage system (BESS) projects in Texas, US. Energy-Storage.news recently reported ...

A global energy storage developer, Energy Vault, has secured project financing and a long-term offtake agreement for a Battery Energy Storage System (BESS) in Texas. This initiative, known as the Cross Trails project, represents a ...

California's largest electric utility is continuing its push to establish a net-zero energy system by 2040, finalising an offtake agreement for 1.8GWh of battery storage capacity with Aypa Power.

Texas, USA - [June,2025] - PotisEdge, a leading innovator in intelligent energy storage systems, has entered into a strategic partnership with U.S.-based SolarMax Technology and Longfellow ...

Energy Vault Holdings Inc. has successfully closed an \$18 million project financing deal for its 57 MW/114 MWh Cross Trails Battery Energy Storage System (BESS), now fully operational in ...

Norway Launches Complete Industrial Chain for Carbon Capture and Storage Norway has launched a major industrial project aimed at capturing, maritime transport, and geological ...

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, ...

Texas presents a unique combination of a robust energy market and a pressing need for reliable infrastructure. The state has been at the forefront of renewable energy adoption, and battery ...

TGS provides energy data and insights for the broader energy industry. Across the energy spectrum, through innovation and data-driven solutions, TGS utilizes diverse sources of data, including their own, to create ...

Texas energy storage norway

The global energy storage battery cell market experienced unprecedented growth in H1 2025, with shipments exceeding 250 GWh--a 100% year-over-year increase driven by coordinated policy ...

Glint Solar has added a new battery energy storage noise-modelling feature to its utility-scale planning software platform. The new tool is meant to support project developers during early ...

After setting a record for electricity generation earlier this week, the Texas energy grid set a new one for a rapid discharge of energy storage systems to support peak evening consumption on ...

Texas has just taken another bold step toward a more reliable and flexible power grid. Last week, Lydian Energy secured \$233 million to build three new lithium-ion battery energy storage ...
