As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

Okay, now what about electric and plug-in hybrids? The company plans to offer 15 battery electric vehicle (BEV) models by 2027, compared to the five it currently offers. Two of these new BEVs ...

The once-accelerating transition to battery electric vehicles (BEVs) in the U.S. has hit a speed bump. Slowing consumer demand, infrastructure limitations, and shifting regulatory signals ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

This report is a life-cycle assessment (LCA) of the global warming potential of passenger cars sold in the European Union (EU). It compares sales-weighted average medium segment gasoline, diesel, and natural gas internal ...

These components are specifically designed for automotive batteries used in battery electric vehicles (BEVs) and plug-in hybrid vehicles (PHEVs), with the expansion finalized as of June ...

Sherab Lhamo A looming transportation crisis threatens Thimphu, with new warnings suggesting residents could be stuck in traffic queues for over half their commute by 2047 if current trends ...

Die zuletzt verhaltene Nachfrage nach BEVs (Battery Electric Vehicle) in Deutschland und Europa hat wieder merklich angezogen. Das zeigt der „Electric Vehicle Sales Review“ von PwC ...

Nearly all of these will be battery electric vehicles (BEVs), underlining India's preference for full-electric solutions over hybrids or fuel-cell variants, which are yet to make inroads. Leading this ...

Imports of battery electric vehicles (BEVs) fell by more than 50 per cent in value during the 12 months to June 2025, when compared with the year prior, according to Stats NZ. The total value of passenger motor vehicle imports for the past ...

BMW Group has announced its commitment to hydrogen fuel cell technology, planning to launch its first hydrogen-powered vehicle into series production by 2028. This move positions the ...

Battery Electric Vehicles (BEVs) now dominate powertrain installations, making up nearly 71% of the total demand across major regions. Battery packs account for about 38% of the market ...
