

# Timeusb lithium battery review

How much power does a timeusb battery have?

Max. Load Power: Timeusb 12.8V 100Ah Pro LiFePO4 Battery, Built-in 100A BMS, 4000+ Cycles with Grade A Battery Cells, 1280Wh Deep Cycle LiFePO4 Battery, Perfect for RVs, Solar Home System, and Off-grid Applications.

What is a timeusb 12V 100Ah pro LiFePO4 battery?

The Timeusb 12V 100Ah Pro LiFePO4 Battery is a versatile and reliable solution for anyone in need of a dependable power source. It is ideal for RV owners, solar home system users, and individuals living off-grid. Whether you're a weekend camper, a sustainable energy enthusiast, or someone seeking self-sufficiency, this battery is a must-have.

How long does a timeusb battery last?

The automotive-grade battery cells used in this battery ensure superior reliability and longevity. With an ideal battery cell structure, the Timeusb battery can perform over 4000 cycles, making it highly durable and long-lasting. This means you can rely on it for years to come without worrying about frequent replacements.

What is a timeusb LiFePO4 battery?

The Timeusb LiFePO4 Battery seamlessly integrates with solar panels, storing the energy generated during the day for use during the night or during periods of low sunlight. It ensures a steady power supply and allows you to maximize the benefits of solar energy. For those living off-grid, having a dependable battery system is a necessity.

Why do you need a timeusb battery?

The Timeusb battery provides a consistent and long-lasting power source, allowing you to enjoy your adventures without worrying about running out of energy. From powering appliances and electronics to running lights and fans, this battery has you covered. With the increasing popularity of solar energy, having a reliable battery is essential.

How many cycles can a timeusb battery run?

The battery is rated for 4000+ cycles to 80%. If the DoD (depth of discharge) is 80%, it's rated at 6000 cycles, and 15000 cycles at 60% DoD. Expandability You can combine two or more Timeusb batteries in either series or parallel. According to the manual, it supports up to four batteries in series or parallel.

With its impressive 1280Wh capacity, this lithium iron phosphate (LiFePO4) battery provides ample power for various appliances like refrigerators, lighting, laptops, and even small appliances like blenders or coffee makers.

The components that I was initially the most concerned about were the batteries. Like I said, they were the lowest cost 12V 100Ah batteries I found so I was naturally a bit anxious even after reading the great reviews. To my delight, my two Timeusb batteries have performed flawlessly day in and day out ever since day 1.

?Light Weight & Group 31 Design? Timeusb lithium battery 12V 140Ah has a high energy density of 64.23Wh/lb. It weighs just 27.9lbs, which is 1/2 the weight of a 12V 100Ah lead-acid battery at 55lbs.
