

Peak production is one of the shared goals of stakeholders across the utility-scale solar value chain, but with site conditions becoming increasingly challenging, it's a more complex goal than...

The rapid expansion of utility-scale solar installations, particularly in countries like India, China, and Australia, is one of the primary drivers of the Asia Pacific solar tracker market.

Power cuts have been a persistent issue in Lebanon for decades due to a dysfunctional energy sector. Energy experts point out that for those who can install solar power, it is ten times cheaper than relying on private ...

Large renewable procurement in South Africa and ambitious hydrogen production plans in Egypt are expected to bring huge amounts of privately-owned, utility-scale solar capacity on line in the next three years.

Global average solar LCOE stood at \$0.043/kWh in 2024, says IRENA The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MOU) with Solaris Energy (Pvt) Ltd., a leading solar distributor in Sri Lanka, to ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global average total installed cost of utility-scale solar projects ...

Conclusion In the pursuit of optimizing utility-scale solar projects, both tracking systems and fixed-tilt arrays present unique advantages and challenges. A comprehensive analysis considering ...

Section 25D--the one that gives homeowners the residential solar tax credit--is now set to expire for systems installed after December 31, 2025. Section 48E, which helped commercial and ...

Developing utility-scale solar power is one of the fastest ways to reduce carbon emissions and put the world on a path to a clean energy future. >> Secure Your Solar Projects This Peak Season - Local Stock Ready Across ...

Enbridge has made a final investment decision on the Clear Fork solar project in Texas, a 600-megawatt facility whose entire output will be acquired by Meta Platforms Inc. under a long ...

China's dominance in renewable hardware production plays a major role in pushing prices down. In parallel,

Utility-scale solar Beirut

the average cost of electricity generation for utility-scale solar PV dropped by 68%, ...

Utility-scale solar projects are continuing to advance across the United States. Solar represented 77.7% of new capacity added to the U.S. grid in 2025 through April, according to the Federal Energy Regulatory Commission, and continues ...

Deciding between central inverters and power optimizers for utility-scale solar projects involves careful consideration of several factors including efficiency, cost, and the specific ...

Trinasolar, a global leader in smart PV and energy storage solutions, signed a Memorandum of Understanding (MoU) with Solaris Energy Ltd., a leading solar distributor in Sri Lanka, to ...

According to ICSC Chief Data Scientist Jephraim Manansala, this rise in unregistered solar affects how distribution utilities plan and manage the grid. SPECTRUM classifies rooftop solar into ...

The Role of I-V Curve Tracing in Quality Inspection Quality inspection in utility-scale solar installations is paramount to ensure optimal performance and longevity of the solar assets. I-V ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global ...

Solar Power World, the leading solar publication covering technology, development and installation, publishes the Top Solar Contractors List annually. The list includes hundreds of solar contractors and developers in ...

What utility-scale solar project developers should know about One Big Beautiful Bill Developers will need to navigate expiring tax credits, stricter "safe harbor" rules and foreign content ...

Utility scale solar submissions increase Submissions for utility scale solar farms has been at heights not seen before. With over 7GWp submitted to date this year and over 5GW submitted ...

The Brechin Castle Solar Ltd, a joint venture partnership between bp (35 per cent), Shell (35 per cent) and NGC (30 per cent), has achieved first electrons from the nation's first utility-scale ...
