

Microgrids offer a new approach to power generation and distribution, resulting in unprecedented flexibility and resilience. These localized electrical networks operate independently or in ...

Luxembourg-based SES has completed its US\$3.1 billion (EUR2.8 billion) acquisition of US satellite operator Intelsat, cementing its position as one of the largest multi-orbit satellite providers ...

Through immersive experiences, real conversations, and a supportive network, the WiMCO Tech Summit inspires professionals to take risks, build leadership skills, and help shape the future of mission critical operations. ...

Off grid investment: New study reveals microgrid efficiency and cost benefits As power challenges impact Europe's AI data centre hotspots, adopting microgrid independent power can be a ...

China has begun building a submerged data centre off the coast of Shanghai, aiming to reduce electricity consumption and environmental impact by using seawater for cooling and offshore ...

xAI, an AI startup owned by Elon Musk, is reportedly in talks with financier Valor Equity Partners to secure up to US\$12 billion in funding for its expansion, according to the Wall Street Journal on ...

This study aims to design and research the integrated microgrid of photovoltaic ES and charging, with the aim of achieving efficient management of microgrid resources through reasonable ...

Specialized backup power for key assets has provided a key value for microgrids, albeit not one that has seen historically widespread potential. The custom aspect of microgrid design ...

APAC data centre platform Princeton Digital Group (PDG) has signed a definitive agreement with New York-based alternative investment firm Stonepeak for a US\$1.3 billion preferred equity ...

Microgrids are introduced with an emphasis on their key features, operational flexibility, and challenges arising from power-electronics-based generation. The mathematical modeling of ...

The operator has raised US\$235 million through an asset-backed securitisation supported by its fully leased Phoenix facility, with proceeds aimed at scaling its data centre footprint across ...

Here's my guide to spending one perfect day in Vatican City. In 24 hours, the Vatican guide takes you to all the must visit attractions in Vatican City, from the Vatican Museums to St. Peter's Basilica. It covers all the best things ...

Vatican city microgrid design

In a significant stride towards sustainable energy solutions, researchers have developed a innovative hydrogen microgrid system tailored for high-altitude tourist cities, using ...

CityFibre has secured a £2.3 billion (US\$3 billion) financing package to accelerate the expansion of its nationwide full fibre network, following agreements with shareholders and lenders.

Malaysia will introduce a data centre framework in October aimed at streamlining policies and guiding the development of the sector, according to the country"s trade and digital ministries.
