

Buildings Thermal Energy Storage NREL researchers are advancing the viability of thermal energy storage. At NREL, thermal energy science research focuses on the development, validation, and integration of thermal storage ...

In a rapidly evolving energy landscape, the ability to strategically integrate smart technologies makes all the difference. That's why more and more companies, public administrations, and ...

Thermal energy storage represents a fundamental shift in how we think about energy management. It's not just about generating clean energy - it's about using that energy more intelligently and efficiently.

The Koorangie BESS (pictured) features 100 Tesla Megapack units equipped with grid-forming inverters. Image: Edify Energy. Australian renewable energy developer Edify Energy has confirmed that the 185MW/370MWh Koorangie ...

The government of Victoria in Australia is fuelling its cleaner energy efforts as it accelerates the development of Global Power Generation's battery energy storage system (BESS) project in ...

Victoria's legislated storage targets--2.6 GW by 2030 and 6.3 GW by 2035--signal a policy environment increasingly supportive of large-scale storage infrastructure. According to Victorian Energy Minister Lily D'Ambrosio, the ...

While battery energy storage systems (BESS) have predominantly been utilized to ensure round-the-clock availability of intermittent renewables, their application to thermal plants is a new and ...

A new wind farm and battery storage project in central Victoria is now inside the state's planning machinery, as Acciona moves into the next phase for its proposed 330 megawatt (MW) Tall ...

The market for neopentane-based energy storage solutions is experiencing significant growth, driven by the increasing demand for efficient and sustainable energy storage technologies. ...

In this video, we explore how brick batteries and crushed volcanic rock batteries are transforming energy storage. While lithium-ion batteries have dominated the grid-scale market, they face ...

Banpu Public Company Limited, through its wholly owned subsidiary Banpu Energy Australia Pty Limited (BEN), has announced a joint investment with EnergyAustralia in the development of ...
